1. At this time I would like to commend you for your efforts in behalf of the 119th Aviation Company on 26 October 1963. Thanks to your work here and in Saigon, our post party by the 119th Aviation Company was a greater success.

2. Perhaps you did not realize it at the time, but the company had hired a musical band from Nha Trang to accompany the acts in our variety show. Unfortunately, only the guitar player was able to come, leaving us without music for the show. However, thanks to your efforts in Saigon, the musical instruments you secured arrived in time and we were able to continue as planned.

3. Your own act was carried out in a most professional manner, and the warm reception it received is ample evidence of your success in entertaining our men. I know the entire 119th joins me in thanking you for your help. I sincerely believe your work contributed in a large way to the morale and welfare of our men here in Pleiku.
